SA LOCK
Trading (Pty) Ltd

TRANSPONDER CATALOGUE

SA Lock Trading's years of experience open the door to leading brands and products, the ultimate in quality security solutions and optimum service excellence

SA LOCK Trading (Pty) Ltd

THE ULTIMATE SOURCE *FOR ALL YOUR* TRANSPONDER NEEDS

ABOUT US

Over the years, SA Lock Trading has set the benchmark in locksmith supply, consistently delivering quality products and exceptional service across South Africa and surrounding. We are proud to be recognized as a leading wholesale merchant, offering an extensive range of keys, locks, transponders, key programming equipment, and associated security solutions.

Backed by a team with over 100 years of combined industry expertise, we ensure our customers always have access to the latest innovations and proven products. As a family-owned enterprise, we value strong relationships, reliability, and a commitment to helping our partners succeed.

At SA-Lock Trading, service is key and we go the extra mile to provide the full package: trusted products, knowledgeable support, and a dedication to excellence that keeps our customers coming back time and time again!

KD-X2

CODE: KD-X2

KEYDIY KD-X2 Remote Maker Unlocker and Generator-Transponder Cloning Device with 96bit 48 Transponder Copy Function

1. **KEYDIY KD-X2 can work with PC software by USB-B connection, and work with IOS Android phone or tablet by OTG connection.**
2. **Three functional shortcut buttons: chip identification, remote identification and frequency detection.**
3. **Free Activation of 96 Bits 48 Transponder Copy.**

FRONT SIDE BACK

The KDX2, is a multi-function auto key programmer which is very popular among locksmiths thanks to its small body and powerful functions. The KDX2 is more than just a cloner, it is also capable of copying transponders, read and write from / to transponders, execute a frequency test and generate type transponders, all in just a few simple steps.

KDX2 also benefits from a built-in snoop device which notifies you when you have gathered the necessary snoop data on ID46 and Id48.
This key cloner is as small as a phone, meaning that you can simply put it in your pocket and take it with you. And in order to avoid the problem of power supply the KDX2, has been designed with a 1600mAh lithium battery, allowing you to decode hundreds of times when fully charged

KD-X4

CODE: KD-X4

KD-X4 is a locksmith professional device that integrates recognition, generation, copying, programming, and matching.

It can be operated independently, or connected to tablets, mobile phones, and PC software in multiple free modes. Locksmith can choose the mode of operation that suits their own usage habits. Exclusive priority release of some industry-leading features. The device supports frequency detection, remote control generation, remote control simulation, key-less remote simulation, remote control copying, chip recognition/copying, chip generation, chip acquisition, key unlocking, IMMO programming, programmer reading and writing data, online upgrading and other functions. It has become a professional device with simple operation, stable performance, and wide coverage of car models.

- Industry debut UWB (Bluetooth) Key Detection.
- Industry exclusive Toyota used key unlock free programming.
- First to release MLB chip detection function.
- CANFD integration, no other accessories required.
- 24V Chinese heavy-duty truck model programming
- Built in programmer function, will support SA mileage function.
- One second startup, greatly improves locksmiths work efficiency.
- Supports 19 languages including Arabic, German, Spanish, English, Chinese, etc
- One wire harness can cancel Ford alarm and program the Toyota 8A blade key all key lost situation (Need to purchase separately)

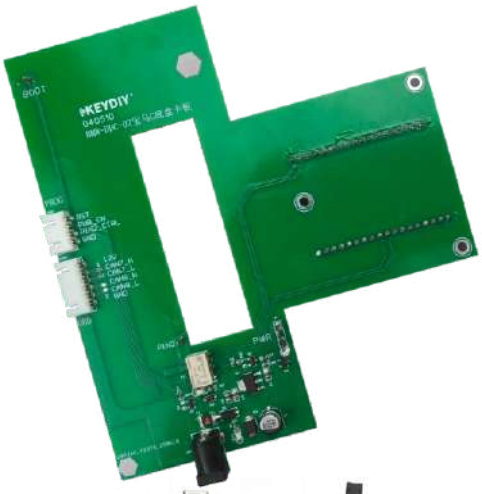
Specialized cable for adapter boards

AUDI-BMC2 - Adapter

CODE: KD-AUDI-BMC2

KEY FEATURES:

- **Purpose:** The adapter facilitates key programming for Audi vehicles that use the BCM2 anti-theft system.
- **Required device:** It must be used with the KEYDIY KD-X4 key programmer.
- **Supported vehicles:** It supports specific BCM2 versions found in some Audi models. Reports indicate it works with BCM2 units identified as (34 35) and (3634, 3635).
- **Application:** It is used in locksmith and automotive diagnostics applications for adding new keys or programming keys for all keys-lost scenarios.



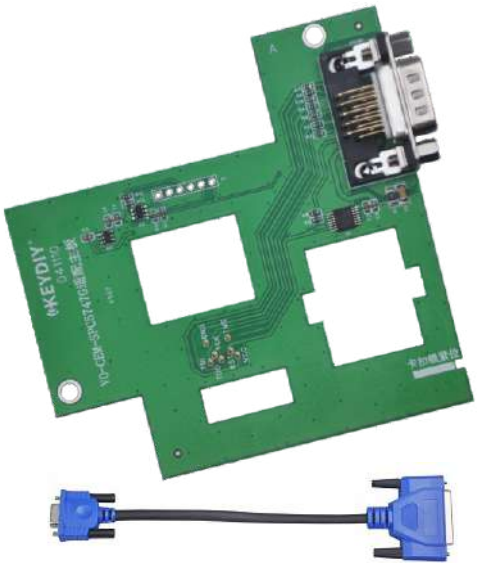
BDC Programming Cable | BDC Matching cable | BDC Power Cable | Locating pinx8

BM(G)-BDC2-Adapter

CODE: KD-BMG-BDC2

KEY FEATURES:

- **Application:** The adapter is designed for BMW's G-series platform, which uses the BDC2 immobilizer system.
- **Functionality:** It allows an automotive locksmith to perform key-related functions such as adding a new key or performing an "all keys lost" procedure on compatible vehicles.
- **Required tool:** The KD-ADP2501 adapter must be used with the KeyDIY KD-X4 key programmer.
- **Purpose:** This accessory expands the capabilities of the KD-X4, enabling it to work with modern BMW key systems that would otherwise be unsupported.



Specialized cable for adapter boards

VOLVO Special Adapter

CODE: KD-VOLVO-CEM

KEY FEATURES:

- **For Volvo vehicles:** The adapter is designed to work with the Volvo Central Electronic Module (CEM) that uses the SPC5747G chip.
- **Solder-free connection:** The "solder-free" design allows for a clean and efficient connection to the vehicle's components, reducing the risk of damage that can occur during desoldering and soldering.
- **Requires KeyDIY programmer:** The KDADP2502 adapter must be used with a compatible KeyDIY key programming tool, such as the KD-X4 or KD-MP.

ALL FOR USE ON THE KD-X4 PROGRAMMING MACHINE

Effortlessly Enhance *Security* »

Make Your Phone Your Car Key

The Xhorse Bluetooth Digital Smart Key transforms your smartphone into a fully functional smart car key.

Designed for iOS and Android, the device plugs directly into your vehicle's OBD port—no need to bury original keys or install complex wiring. Leveraging BLE 5.1 Bluetooth technology, it enables secure keyless entry, touchless locking, and engine start functionality. Integrated diagnostics let you read trouble codes and monitor vehicle status in real time using the SmartKey Box app.

■ HIGHLIGHTS

- Touchless Locking
- Keyless Start
- Diagnostics Assistant
- Vehicle Status Check
- No Network Required
- Remote Authorization
- Smart Control
- OBD Easy Installation

■ FEATURE HIGHLIGHTS

Feature highlights:Xhorse VVDI PROG Auto Programmer supports reading and writing for multiple chips including MC9S08, MC68HC(9)12, MC9S12, V850, H8X, R8C, PCF79XX series, and most eeprom chips.

It features a high-speed USB communication interface, built-in update software, multi-language support (English, Arabic, French, etc.), and functions like BMW ISN read and NEC chip updates. The device includes a self-test function, error cause listings, and reserve ports for future updates.

- **Xhorse VVDI PROG support update online**
- **Read & Write series chips**
- **Support ECU reflash**
- **VVDI PROG software provides wiring diagram, easy to operate**
- **Multi-language: English, Cezch, French, Italian, Polish, Portuguese, Russian, Spanish, Turkish**

VVDI MB *TOOL*

PROGRAMMER

CODE: SA-XDMBC0

The Xhorse VVDI MB BGA Tool is the latest key programmer for Mercedes Benz. It will allow you to program new keys to your customer's Mercedes without the need for desoldering/resoldering.

Supports Mercedes Benz keys, reading password and preparing a new key via IR. Mainly used for key reading and writing, EIS tools, password calculation, key file preparing, ESL tools, ECU/Gearbox renewal, and many more special functions.

FEATURE HIGHLIGHTS

- Read & Write Key
- Read & Write Gateway
- Password Calculation
- Program ECU / Gearbox / ISM
- Online Technical Support for Free
- Generate Key File
- Unlock ELV Function
- One-Year Warranty
- EIS Tools
- ESL Tools
- KM Repair

■ VVDI BIM TOOL *PRO*

CODE: SA-XDBM0

Essential tool for Automotive *Maintenance*

BMW Coding And Programming Tool

Xhorse VVDI BIMTool Pro Support BMW E-sys and Rheingold Diagnostic System. Able to replace the specialized devices.

(connect via network cable),Support directly read ISN data without disassembling the ECU (N13/N20/N55/N63)

■ FEATURE HIGHLIGHTS

- Add ethernet port; Support 10/100M programming via the ethernet.
- Support WIFI 802.1b/g, 150 Mbps High-Speed connection, and WIFI OTA upgrade
- Support BMW ECU Programming (NBT / CIC) (Being connected via the network cable)
- Support BMW E-Sys and Rheingold Diagnostic System. Be able to replace the specialized devices. Being connected via the network cable)
- DoIP — Support DoIP Vehicle / Module Programming
- Greatly speed up the F/G Chassis Programming (Being connected via the network cable)
- Support directly read ISN data without disassembling the ECU (N13/N20/N55/N63)

Way More Stable And *Reliable*

A Pro for VW, AUDI, PORSCHE, BMW, etc.

VVDI2 is a comprehensive IMMO matching device. It has the OBD matching function of the special models and the IMMO data writing start function.

It can also generate and convert various original chips, and can also generate various Xhorse chips and keys, and with the special adapter, it can also copy 96-bit 48 chips of various models. **VVDI 2** also has a data processing function, which can automatically process the IMMO data of common vehicles to match the IMMO operation.

Multi-Module *Reading & Writing*

Convenience at hand with Connection Diag.

The Xhorse Mini Prog Chip Programmer is the solution to reprogramming chipsets without the need for removing the chipset from the board. Designed to be portable, this device will allow you to program chips on the go, giving you the ability to work on the go.

The three different pin head adapters can easily be switched out to read and write different chips, as well as using the EEPROM board in order to complete the work with ease, no matter the job. With a built-in smart screen, you will be able to clearly see the status of the tool in real-time. Support reading and writing 24C××, 93C××,95×××, 25××× and more EEPROM data, Covering 95% of common EEPROM'S on the market.

■ MLB - TOOL

A PRO TOOL *FOR MLB*

CODE: SA-XDMLB0

Ultra Capable *in Reading writing and Calculating*

No points required when using VVDI MLB specialized key

■ KEY FEATURES

Excel in key adding for MLB Models
Support adding keys for Audi, Porsche, Volkswagen, Lamborgghini, Bently, and other MLB vehicle models.

No Need to Remove the Chip
Key data calculation requires only the disassembly of thekey shell, with no need to remove the chip. Integrated with a 22k reader, it enables wireless key reading and writing without shell removal.

Wireless Key Generation for Ultimate Convenience
Generate original dealership keys and Xhorse specialized keys wirelessly.

IMMO Detection Made Easy
Built-in IMMO detection module supports wireless key recognition.

Compatibility with Original Keys and Xhorse Specialized Keys
Support brand-new original keys (uninitialized/initialized) and can verify the status of the original keys.
Support VVDI MLB specialized keys for unlimited reuse.

Rewrite Uninitialized Key Ids
Support rewriting uninitialized original key Ids

No Need for On-Vehicle Data Collection
Simply collect key data, upload for calculation, and obtain IMMO data without needing to access the vehicle.

■ MQB48 ADAPTER

CODE: SA-XDMQBA

MQB Key *Data Reading Feature*

No Need to Disassemble the Instrument Effortlessly Add Keys to MQB48 System

The XHORSE XDMQBAGL MQB Adapter is a revolutionary tool designed for effortless key programming for most MQB48 keys, without the need to disassemble the vehicle's dashboard.

By only removing the key and connecting two wires, this adapter offers a simple, low-risk method for adding keys. When paired with the VVDI MLB Tool, it ensures a seamless key data reading experience for MQB48 key systems.

■ FRONT

■ BACK

■ KEY FEATURES

- ☑ No Dashboard Removal: There's no need to dismantle the dashboard. Simply remove the key and solder two wires for easy key programming.
- ☑ Simplified Key Addition: With minimal steps and low risk, this adapter makes it easier to read key data and add new keys.
- ☑ Optimized for Computer Use: For best results, it is recommended to collect data using a computer instead of a tablet.
- ☑ Compatible with VVDI Tools: Works smoothly with VVDI Key Tool Plus or VVDI2 (with MQB48 function enabled) to effortlessly complete key data reading and key generation.

Exclusive adapter for MLB-TOOL

Xhorse

CONDOR XC-002 PRO

Ultra High **Precision Duplication**
- For High Security Keys

Xhorse Condor XC002 PRO is a brand-new replacement on the market. It adopts quick tool change technology to realize quick tool-free replacement of milling cutters and probes, and at the same time ensures that the milling cutter probe is clamped in the center.

Aluminium Body
Integral casting, built to last

High-Speed Motor

0-45° **CLAMP**

Xhorse

VVDI SUPER CHIP *XT27A*

This transponder, often referred to as a "CLONING" chip, is designed for use with a cloning machine to duplicate data from an existing key onto a new chip.

Work with
KEY TOOL *PLUS*
KEY TOOL *MAX MINI*
KEY TOOL *MAX PRO*
VVDI *2*

VVDI SUPER CHIP *XT57B*

The Xhorse Super Chip Xt57b Is A Brand New, Universal Rewritable Transponder Chip — An Upgraded Successor To The Xt27a.

7-PIECE CAR DOOR OPENING KIT

CODE: HLC-10B

Unlock precision and convenience with this professional-grade Car Door Repair & Opening Tool Set. Designed for locksmiths, mechanics, and emergency responders, this kit provides everything you need for quick, safe, and efficient car door access.

Key Features:

- **Complete 7-Piece Set:** Includes wedge pump, hand tools, and quick-open accessories.
- **Durable Construction:** Made from high-quality materials for long-lasting use.
- **Easy Operation:** Wedge pump allows controlled entry without damaging the vehicle.
- **Versatile Application:** Suitable for locksmiths, roadside assistance, and DIY car repair.
- **Portable Kit:** Compact design makes it easy to carry and store in your vehicle or workshop

*Whether you're a professional locksmith or need a reliable emergency solution, **this kit ensures you can handle car door openings** quickly and safely.*

G1200 MICROSCOPE

12MP 1–1200X Digital Microscope

CODE: HKP-73A

Discover precision and clarity with the G1200 Digital Microscope, designed for soldering, electronics repair, and detailed inspection work. Featuring a 12MP high-resolution camera and 1–1200X continuous magnification, this microscope delivers sharp, accurate visuals for both professionals and hobbyists.

Key Features:

- **Wide Magnification Range:** Adjustable from 1X up to 1200X for versatile applications.
- **High-Definition Imaging:** 12MP sensor ensures crisp, detailed images and videos.
- **Continuous Amplification:** Smooth zooming without loss of clarity.
- **Portable & Convenient:** Built-in rechargeable battery for cordless operation.
- **Ideal for Electronics:** Perfect for soldering, PCB inspection, and micro-component analysis.

*Whether you're repairing delicate circuits, studying intricate details, or exploring the microscopic world, the **G1200 microscope** is your reliable tool for precision work.*

KEY SIM 5 IN 1

SMART KEY *SIMULATOR*
SUPPORTS 46/4D/H CHIP

CODE: OBDS-KEYSIM

OBDSTAR Key SIM is a 5 in 1 key simulator can generate keys with our devices in the case of all keys lost. So the ignition switch can be turned on, and then a new smart key can be added and programmed with our devices.

FEATURES

- Supports 46, 4D Data Collection
- Supports 46 Transponder Password Calculation
- **Support models:**
  - **1 - Porsche(2005-2010) 46 Pincode decryption**
  - **2 - HYUNDAI/KIA 46 Pincode decryption,etc.**
- Supports Toyota/Lexus 4D (94/D4, 98) Smart Key Simulation
- Supports Toyota/Lexus H (88/A8, A9, 39) Smart Key Simulation

More features are under development...

P005 ADAPTER KIT

FOR BMW IMMO *FUNCTION OF BDC02*

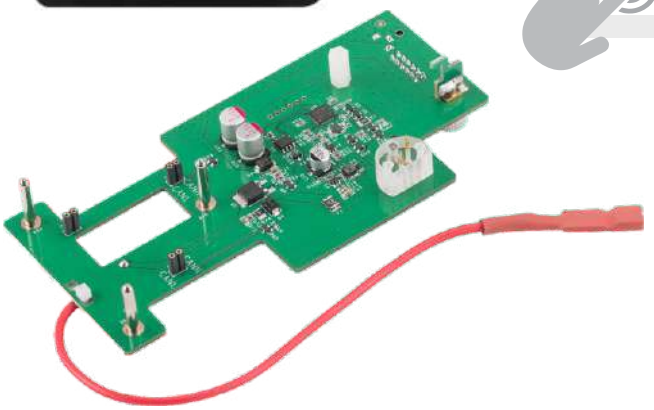
CODE: OBDS-P005 ADAPTER KIT

P005 Adapter Kit includes P005 Custom Board and W012 Connecting Main Cable. It's used for IMMO function of BMW BDC02. It is compatible with OBDSTAR X300 Classic G3 device.

FUNCTIONS

- Support solder-free reading IMMO pincode of BMW BDC02 via BOOT mode, is used for adding keys;
- Support solder-free virginizing of used BMW BDC02 ECU via OBD/BOOT mode.

NOTICE: OBD-*mode virginizing requires prior possession of the 32-bit security key. If the key is unavailable, it must be retrieved by accessing the required data via BOOT mode.*



OBDSTAR

SA LOCK Trading (Pty) Ltd

BENZ FBS3 KIT

TO READ PIN CODE/ RESET *ECU AND PROGRAM*

CODE: OBDS-BENZFBS3KIT

OBDSTAR BENZ FBS3 KIT is used for reading PIN code, ECU reset virgin/program and programming keys. Support FBS3 Add Keys, AKL,ECM/TCM/ISM/EIS/ELV reset virgin and set personalization.

Support Functions

- **Read PinCode**
  - Calculate PinCode (By Work Key)
  - Calculate PinCode (AKL)
  - Read BE Key PinCode
- **ECU Reset Virgin/Program**
  - EIS
  - ISM
  - ECM
  - ELV
  - TCM
- **Program Keys**
  - Read Key's Data
  - Generate Key File
  - Erase BE Key
  - Write BE Key

C1008 NISSAN-40 BCM

CABLE FOR PROXIMITY KEY *ADDING AND AKL*

CODE: OBDS-NISSAN 40 BCM CABLE

OBDSTAR NISSAN-40 BCM cable works with X300 Classic G3/ Keymaster G3/ X300 DP PLUS/ X300 PRO4/ X300 DP Key Master for proximity key adding and all key lost (no need pincode) for Nissan Hennessy/Kiwi T33/Pathfinder, Mitsubishi Outlander etc.

Support functions:

- Nissan Sentra: Proximity key adding (no need pincode) (the model can replace the Nissan/Renault 16 + 32 Gateway harness use)
- Nissan Rogue T33: Proximity key adding and all key lost (no need pincode)
- Nissan Pathfinder: Proximity key adding and all key lost (no need pincode)
- Mitsubishi Outlander 2021- : Proximity key adding and all key lost (no need pincode)

OBDSTAR

SA LOCK Trading (Pty) Ltd

C1007 NISS/REN 16+32

ADAPTER CABLE

FOR ADDING KEYS, ALL KEYS LOST AND ECU PROGRAMMING

CODE: OBDS-NIS/REN16+32

OBDSTAR C1007 Nissan/Renault 16+32 Adapter for X300 Classic G3/ Keymaster G3/ X300 DP Key Master/ X300 DP Plus/ X300 PRO4.

It applies NISSAN SYLPHY/ SENTRA, RENAULT Clio V/ New Captur/ Zoe2, over their gateways for adding keys, all keys lost and ECU programming.

16+32 Gateway Adapter Highlights:

- Used with X300 Classic G3, X300 DP Plus and X300 Pro4
- Applicable to Sylphy, Sentra, Renault Etc (Models with B18 Chassis)
- Bypass password for Add key, All Key Lost and HFM programming.

TOYOTA-30 CABLE

SUPPORTS *4A & 8A-BA* AKL *(WORKS WITH CAN DIRECT KIT)*

CODE: OBDS-TOYOTA-30 CABLE

OBDSTAR Toyota-30 cable is mainly used for all keys lost and password-free matching operation of 8A-BA and 4A models of Toyota's latest smart key box with 30 pins. The TOYOTA-30 cable supports the following models: 2022-Corolla Sharp, Fenglanda, Senna HV, Lingfang, Lingfang HV, Wei HV, Grevia HV, bZ4X, etc. Using Toyota-30 cable, there is no need to break, hook, or plug and unplug wires during operation, and there is no risk of damaging communication wires!

SUPPORT FUNCTIONS:

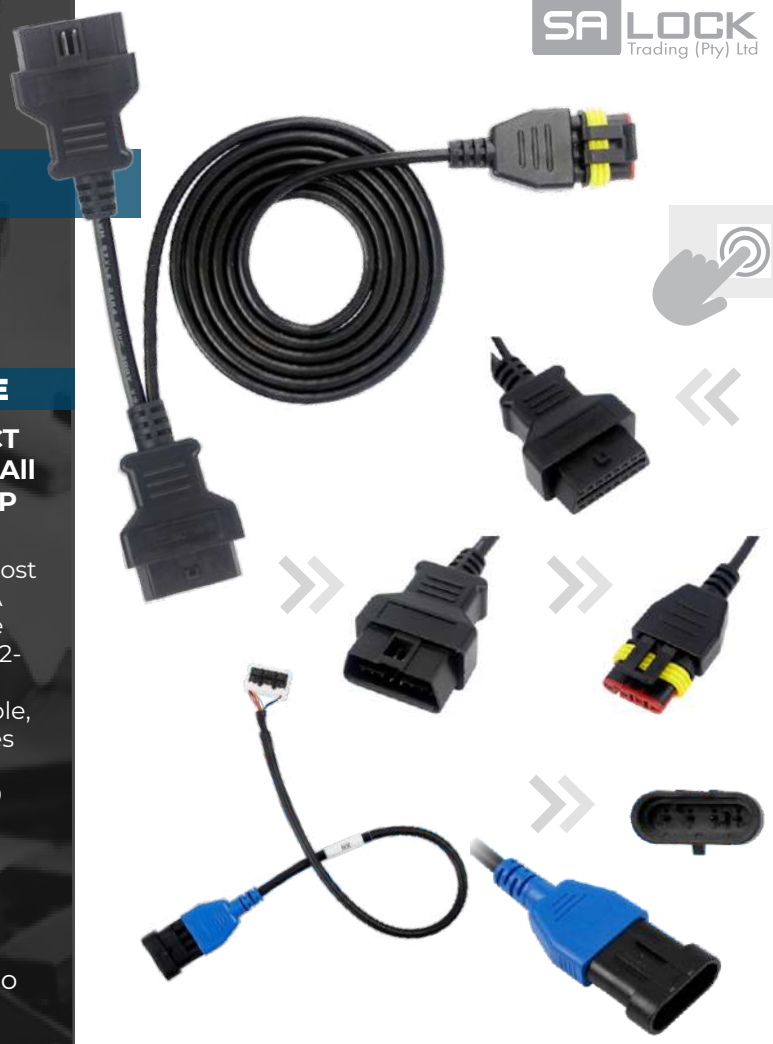
- ID4A proximity key programming (all keys lost, no need pincode)
- ID8A-BA proximity key programming (all keys lost, no need pincode)
- ID8A-B9 proximity key programming (all keys lost, no need pincode)
- 2019-S6J3XX dashboard mileage calibration
- 2021-R7F701401 dashboard mileage calibration (Mileage calibration for other dashboards like R7F701441, R7F701442, etc. will be add

TOYOTA-30 V2 KIT

DIRECT CABLE *AND* TOYOTA-30 V2 CABLE

FOR 4A AND 8A-BA ALL KEYS LOST

CODE: OBDS-TOY-30V2CABLE



OBDSTAR Toyota-30 V2 Kit including CAN DIRECT Cable and Toyota-30 V2 Cable for 4A and 8A-BA All Key Lost for X300 DP PLUS/ X300 PRO4/ X300 DP Key Master

OBDSTAR Toyota-30 V2 cable is mainly used for all keys lost and password-free matching operation of 8A-BA and 4A models of Toyota's latest smart key box with 30 pins. The TOYOTA-30 V2 cable supports the following models: 2022-Corolla Sharp, Fenglanda, Senna HV, Lingfang, Lingfang HV, Wei HV, Grevia HV, bZ4X, etc. Using Toyota-30 V2 cable, there is no need to break, hook, or plug and unplug wires during operation, and there is no risk of damaging communication wires! Works with X300 DP PLUS / X300 PRO4 / X300 DP Key Master.

Features:

- Easy to operate, no risk
- Exclusive release of Toyota 30PIN connector (no need to pierce the harness), supports 4A and 8A-BA type

CAN DIRECT KIT

G3 TO READ ECU DATA

OF GATEWAY VEHICLES

CODE: OBDS-CAN DIRECTKIT

The OBDSTAR CAN direct kit is used to read ECU data from gateway vehicles.

The split design facilitates connection with multiple ECU wires. It supports programming Toyota Corolla 4A proximity keys (PIN code free) directly in the car. It works with the X300 Classic G3, OBDSTAR X300 DP, X300 DP PLUS, and X300 PRO4.

Features:

- Easy to operate, no risk
- Exclusive release of Toyota 30PIN connector (no need to pierce the harness), supports 4A and 8A-BA type

CAN *JUMPER*

- Optional Extra

P003+ ADAPTER

FULL PACKAGE WITH
TOYOTA 8A CABLE + FORD
ALL KEY LOST CABLE

CODE: OBDS-P003+AKLKIT

P003+ Kit, working with OBDSTAR IMMO series tablets, supports reading and writing ECU eeprom & flash data and calculating IMMO data of BOSCH ME17XX, MED17XX, EDC17XX & CONTINENTAL PCR2.

1 for VW/ Skoda/Audi/ Seat, Bentley, Peugeot/ Citroen/ DS, Lamborghini,Porsche, Mahindra etc.

Functions:

- Continental PCR 2.1 reading CS, PinCode, MAC value
- Bosch MED17.4.4 reading eeprom , PinCodeP003 KIT
- Bosch EDC17C60 reading eeprom , PinCodeP003 KIT
- Bosch MD1CS018 reading eeprom, PinCodeP003 KIT
- Bosch MED17XX/EDC17XX reading eeprom, flash, CS, PinCode, MAC value
- Bosch ME17XX reading & writing eeprom, flash
- T87A, 6HP reading & writing TCM eeprom, flash

CONVERTER C2

DB15 TO OBD 16
ADAPTER

CODE: OBDS-CONVERTER 2 ADAPTER

Transmission dedicated connectors collection, used for transmission ECU cloning, read/write MAP, diagnosis, mileage calibration and other functions, support Volkswagen, Mercedes-Benz, BMW, Porsche and many other brands, can be directly operated by OBD or by BENCH, no jumper connection required, convenient and fast.

Advantage

The connectors are all made of special molds, ECU connection is more reliable, better experience.

Usage

Suitable for **X300 Classic G3, DC706** and other products of OBDSTAR, with Converter V2 can be compatible with third-party diagnostic devices.

VW4-AKL CABLE

SUPPORTS VW IMMO IV NEC24C64 & NEC24C32 AKL *READS* IMMO DATA BY BENCH

CODE: OBDS-VW4-AKL

The OBDStar VW4-AKL Cable is a specialized accessory designed to facilitate the reading of immobilizer data for Volkswagen vehicles equipped with IMMO IV systems utilizing NEC24C64 and NEC24C32 chips, particularly in all-keys-lost scenarios.

This cable enables technicians to perform key programming and immobilizer data retrieval directly via bench mode, eliminating the need to remove integrated circuits, solder printed circuit boards, or generate server data.

Product Functions:

- Support VW IMMO IV NEC24C64 and NEC24C32 AKL.
- Without removing IC, soldering PCB and making server data
- Read IMMO data by BENCH
- Work with X300 Classic G3, X300 PRO4 and X300 DP PLUS.

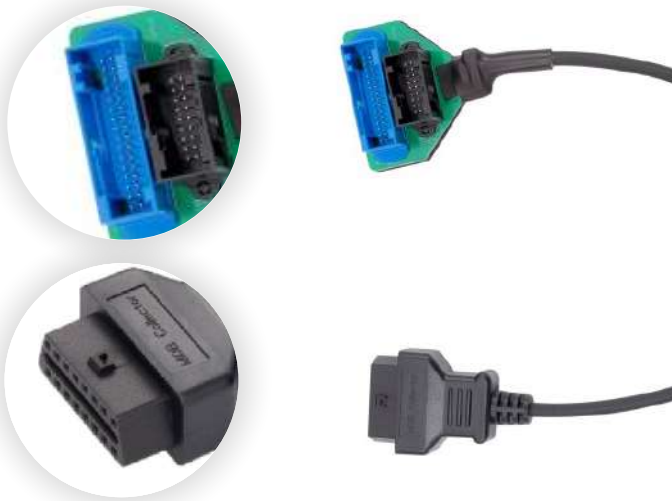
MQB COLLECTOR

FOR RH850/V850 KIT *TO READ* VAG ELV/TCM *SYNC DATA*

CODE: OBDS-MQB COLLECTOR

The OBDSTAR MQB Collector is a specialized diagnostic accessory designed for the OBDSTAR X300 Classic G3 OBDSTAR MQB Collector – Read VA.G ELV/TCM Sync Data.

It allows automotive locksmiths to securely collect ELV (steering column lock) and TCM (transmission) authentication data on VAG MQB platforms without dismantling the ELV module OBDSTAR MQB Collector – ELV/TCM Data Reading Tool.



Features:

- **Non-Invasive Reading:** Extracts necessary synchronization data through the dashboard connector rather than performing risky, time-consuming physical module removal OBDSTAR MQB Collector – ELV/TCM Data Reading Tool.
- **IMMO Data Calculation:** Uploads the collected data to the official OBDSTAR server to calculate the 32-byte ELV IMMO synchronization data OBDSTAR MQB Collector to Read VAG ELV/TCM Sync Data.
- **All Keys Lost (AKL) Operations:** It serves as a vital step in generating new keys when the vehicle is in an AKL state by syncing the ECU, dashboard, and ELV modules OBDSTAR G3 Program VW Tiguan 2018 MQB AKL with RH850 Kit.

OBDSTAR

RH850/V850 ADAPTER

HALF KIT FOR AIRBAG *RESET* IMMO DATA

CODE: OBDS-RH850/V850 BKIT

RH850/V850 adapter kit is for airbag reset, immo data/pincode read (Dashboard, BCM, ELV, etc.). And all data read is unencrypted, can be used on third party devices!

Need to be used with Mp001

Works with X300 Classic G3, P50, Keymaster G3.

Functions:

- Volkswagen MQB48-5A key programming (components removing free) (MQB49-5C under development), need to buy the MQB Collectoer
- Ford/ Lincoln 2021-key programming (including all keys lost)
- Nissan/ Renault key programming (including all keys lost)
- FCA key programming (upcoming upgrade)
- Airbag Reset

RH850/V850 ADAPTER

FULL KIT WITH MQB COLLECTOR *ECM001 TCM030 TCM-KIT FOR AIRBAG RESET*

CODE: OBDS-RH850/V850KIT

OBDSTAR RH850/V850 adapter kit is for airbag reset, immo data/pincode read (Dashboard, BCM, ELV, etc.). And all data read is unencrypted, can be used on third party devices!

Full Kit Features:

- Supports VAG MQB 5A key programming (without removing components. With built-in MQB calculator. Calculate MQB AKL sync data on OBDSTAR's server for free. No tokens. Up to 3 calculation per day.)
- Supports Ford/Lincoln 2021- BCM RH850 key programming (including all keys lost)
- Supports Nissan 2021-/ Renault 2019- HFM RH850 key programming (including all keys lost)
- Supports FCA key programming (coming soon)
- Supports the data reading/writing and repair of the new SRS ECU with encrypted RH850 processor
- Airbag Reset

FCA 12+8

UNIVERSAL ADAPTER TO PROGRAM KEYS OR CORRECT MILEAGE OIL RESET VIA OBD 2

CODE: OBDS-FCA12+8CABLE

All FCA (FIAT/CHRYSLER/ALFA ROMEO) vehicles after 2018 are equipped with the SGW security gateway module to prevent attacks on the vehicle network via the CAN bus.

Directly plug in the OBD II-16 connector cannot communicate with the vehicles because the SGW security gateway module can block the access to the vehicle's OBD2 port from non-original diagnoses. To solve this problem, you can connect to the 12 PIN and 8 PIN connections on the car via this FCA 12 + 8 cable to get normal communication with the car.

Function:

Works together with **X300 DP/ X300 DP Plus/ X300 PRO4/ Odo Master/ X200 PRO2** for OBD cluster calibration, OBD key programming, oil/service reset; also can be used with other diagnostic equipment for reading code and clearing code etc.

C4-09 (MB91F526)

ADAPTER KIT FOR READ/WRITE FLASH, DFLASH AND IMMO DATA DECRYPTION

CODE: OBDS-C4-09

The OBDSTAR C4-09 (MB91F526) Adapter kit is an accessory set within the OBDSTAR adapter line for reading and writing MB91F526-based control modules. The kit focuses on FLASH and DFLASH operations and on decrypting immobilizer data in BCM modules with a Magneti Marelli MB91F526 controller. Additionally, the adapter supports FLASH access to the MAZDA 3 DENSO MB91F526 BDMC. The set consists of a C4-09 adapter board with a 25-pin connector on the top and a connection block on the bottom, supplemented with the W004 and W006 solder cables.

W004

W006

Connection is made via the OBDSTAR KeyMaster G3 or DC706: the main device communicates with the C4-09 adapter, which acts as an interface between the programming tool and the desoldered or in-circuit accessed BCM. The W004 cable provides the multi-wire read/write connection to the designated pads of the MB91F526, while W006 is used as an additional solder wire for specific connection points on the board. After establishing the connection, FLASH and DFLASH content can be read and written, and immobilizer data can be decrypted for further processing within the OBDSTAR software.

MAXIIM KM100 IMMO

Key Programmer *Tool Device*

CODE: KM100

The Autel MaxiiM KM100 is an advanced wireless android based key and immobilizer tablet that offers smart key and IMMO learning via OBD capabilities.

The tablet features a 5.5- inch touchscreen display with Bluetooth VCI capable of programming the Autel IKEY as a smart key replacement for more than 700 vehicles and offers IMMO programming capability for multiple vehicle brands including BMW, Volkswagen, Toyota, Honda, and General Motors. Additional innovative features include key renewal and Transponder Editing of 20 supported protocols

FRONT

BACK

KEY FUNCTIONS

- 60-Second Key Generation(Autel Universal Only)
- Transponder Reading/Writing/Cloning
- Frequency Detection & Ignition Coil Detection
- Compatible With Autel Blank Universal Smart Keys
- **Key Renewal:** Supporting 36 Vehicle Makes
- **Transponder Editing:** Supporting 20 Categories
- Dual-Band,High Frequency Transmitter 315m/434m or 868m/915m Supporting Certification Requirements of Various Regions
- Supporting PLC V200
- Extensive IMMO Key programming coverage including for BMW, for Volkswagen, for Toyota, for Honda, and for General Motors

AUTEL®

AUTEL MAXIIM IM508S

Key Programming *Tool Device*

CODE: IM508-2-S

Autel Key Programmer MaxiIM IM508S is a fast, easy-to-use, and ultraportable immobilizer and key programming device. Autel Key Programmer IM508S is capable of providing extraordinary service functions for the immobilizer system.

Together with the ability to quickly diagnose all modules of the majority of the makes and models on the market, IM508S provides you with superior special functions. Autel Key Programmer IM508S is the perfect solution for shops and technicians who demand affordable and powerful IMMO and diagnostic services.

FRONT

KEY FUNCTIONS

- All System Diagnostics
- Auto Search / VIN Finding
- Reading / Deleting Error Code
- Viewing the Live Data Stream
- Viewing Records of Failure History
- Store and Data Manager Applications

BOTTOM

AUTEL®

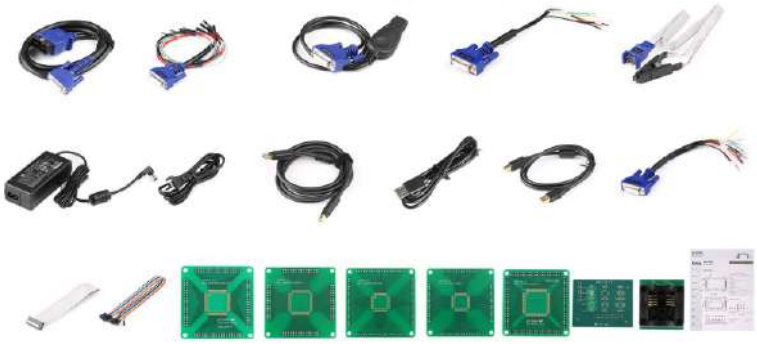
MAXIIM IM608 PRO II

Key Programmer *Tool Device*

CODE: IM608-PRO

MaxiIM IM608 PRO is the most advanced and unique all in one key programming and diagnostic tool that combines advanced key programming, all systems diagnostics, and advanced services in one Android based 10.1-inch touchscreen tablet.

It is equipped with **XP400 PRO** key programmer and **MaxiFlash ECU programmer** to provide complete coverage of IMMO and programming functions. **IM608 PRO** provides you with all special functions to quickly diagnose all modules for the majority of the makes and models on the market. It is the unprecedented key programming and diagnostic tool that you ever wanted



KEY FEATURES

- 10.1 Inches LCD Touchscreen
- 4GB RAM 64GB ROM
- Android 10.0
- 15000mAh Battery Capacity
- Qualcomm 660 Octa-core Processor
- Multi Language Support
- WIFI & BT v5.0 Connection
- 16 Megapixel AF with Flashlight
- 30 x 22 x cm

POWERFUL HARDWARE *SUPPORT*

AUTEL®

AUTEL XP400 PRO

Key Programmer *Tool Device*

CODE: XP400-PRO

The XP400Pro key and chip programmer, compatible with the IM508 and IM608, reads/writes and learns keys to the vehicle.

The XP400Pro enables programming of infrared keys for Mercedes vehicles and IC Chip keys on late model Hyundai KIA vehicles. The XP400 also performs EEPROM-data functions needed for European vehicles. The XP400Pro supports Data Read/Write of 3,000 Plus Chip Types (inc. EEPROM, engine ECU, MCU, IMMO ECU).

- Key Generation
- Key Learning Remote Learning
- Backup/IMMO Data
- Locksmith-Level IMMO Solution

FRONT BACK

KEY FUNCTIONS

- Supports comprehensive IMMO functions and key programming across various vehicle makes
- Reads and writes MCU, EEPROM, and ECU; capable of handling Mercedes Infrared keys and detecting remote frequencies
- Operational with PC for enhanced diagnostics and programming flexibility
- Facilitates IC Card Read/Write, crucial for smart key operations

AUTEL APB112

Smart Key Simulator

CODE: APB112

The Autel APB112 Smart Key Emulator is designed to collect the data sent from the ignition coil, aiming to identify the ignition coil troubles and decode the data of the vehicle key chip.

It can also emulate the vehicle key chip. The APB112 must be used with the XP400 in conjunction with a MaxiIM Key Programming Tablet.

KEY FUNCTIONS

- 46/40 — Support 46, 4D Data Collection
- Support 46 smart key password calculation
- Support 46 chip simulation
- Support Toyota 4D (94/D4, 98) smart key simulation
- Support Toyota H (88/A8, A9, 39) smart key simulation

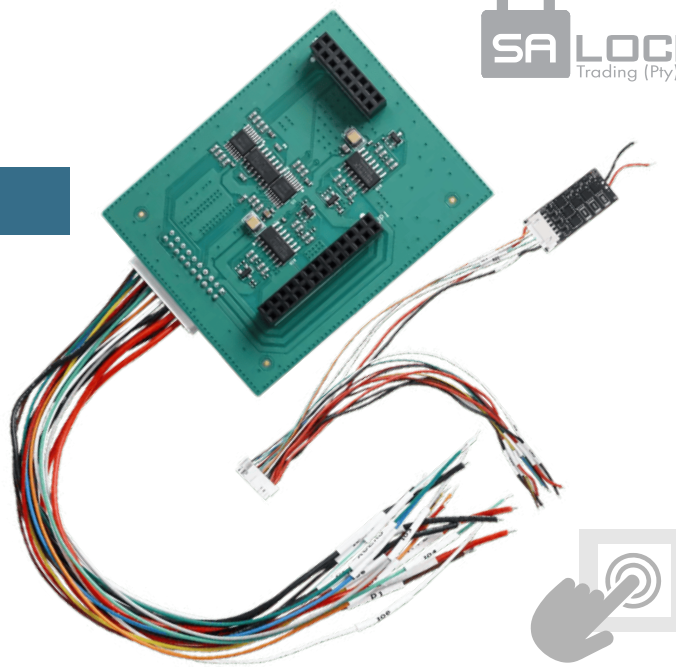
CODE: APB131

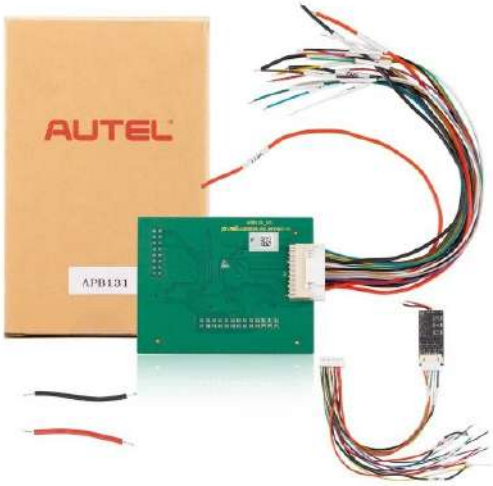


Autel APB131 Adapter Used With Autel XP400 PRO Read IMMO Data from MQB-V850/RH850 Dashboard for IM508 IM508S IM608 IM608 Pro

The MaxiIM APB131 Adapter is designed for use with the **Autel MaxiIM IM608/ IM608 Pro and IM508 / IM508S** tablet lines, which use the **XP400 or XP400 Pro** to Read and Add Keys on select VW/Audi and Nissan vehicles with **MQB-V850 and RH850** dashboards, respectively. Add Keys to Volkswagen Golf 2013-2021, Jetta 2018-2021, Passat 2015-2021, Tiguan 2018-2021, and Touareg 2010-2018; and to Audi A3 2021, A4 2008-2016, A5 2008-2016, A8 2010, Q5 2009-2017. Add Keys and All Key Lost capability on Nissan Sentra B18 2022, Rogue T33 2021, Juke F16 2012 and newer, and Pathfinder R53 2022-2023.

KEY FEATURES

- Advanced Immobilizer and Key Programming accessory compatible with XP400 and XP400Pro
- Add Key Adapter for MQB-V850/RH850 Series
- Read IMMO Data from MQB-V850/RH850 Dashboard



The **AUTEL** *APB131* is a specialized adapter for MQB-V850 and RH850 dashboards, enabling advanced IMMO data reading and key programming. It works in combination with the **XP400** *PRO TOOL*

AUTEL®

AUTEL G-BOX 3

Key Programmer *Tool Device*

CODE: AGBOX3

The Autel G-Box 3 is a cutting-edge key programming adapter that significantly enhances the functionality of Autel's MaxiIM series, including the IM608, IM608 Pro, and IM508 when paired with the Xp400.

Designed for automotive professionals, this advanced tool is crucial for key programming tasks, particularly in All Keys Lost scenarios for Mercedes-Benz vehicles. The G-Box 3 provides advanced ECU support, including Bosch MD1, MG1, EDC17, and MEx17, making it a versatile and indispensable asset. Its Fast Mode capability for both on-vehicle and bench operations accelerates the key programming process, ensuring efficiency and precision in automotive locksmithing and diagnostics.

FRONT BACK

KEY *FEATURES*

- Faster password calculation for Mercedes - Benz all key lost scenario
- Bosch engine ECU read and write on Volkswagen, BMW, and PSA group Vehicles.
- Supports on-vehicle and on-bench Fast Mode in All Keys Lost scenario for Mercedes-Benz vehicles using the DAS3 EIS/EZ5

AUTEL®

AUTEL TOYOTA 8A

Cable *Original For* Toyota

CODE: AKL8AKIT

Supports all lost keys for 8A mechanical keys such as Camry, RAV4, Prius, Highlander, Tacoma, Sienna, Levin, and others. This product is designed to allow programming of Toyota/Lexus/Scion 8A blade keys without disassembling or replacing the immobilizer in an all-key loss situation.

Compatible with all Toyota vehicles that use 8A blade keys, including Camry, RAV4, Prius, Highlander, Tacoma, Sienna, and Levin. Cables for use with Autel's G-Box2 and APB112 Smart Key Emulator. Follow the instructions and review the wiring diagrams on your Autel IMMO tablet. Length: 4 meters.

KEY FEATURES

- **No need to assemble or replace immobilizer in All Keys Lost situation**
- **Compatible with Camry, RAV4, Prius Highlander, Tacoma, Sienna and Levin.**
- **Compatible with Autel MaxiIM Series**

Works with

APB112 - *SIMULATOR*

AUTEL®

AUTEL AT100

Universal Transponder *Super Chip*

CODE: AT100

The Autel MaxiIM AT100 is a universal, programmable transponder super chip designed to replace multiple automotive key chips.

The AT100 is programmable with any of the Autel MaxiIM IM500, IM600 immobilizer and key programming series tablets, and with the KM100 tablet. AT100 Super Chip supports cloning of ID11, ID12, ID13, ID46, ID47, ID48, ID49, ID4A,ID4C, ID5C, ID4D, ID64, ID8A, ID8C, and MQB.

KEY FUNCTIONS

- **Works with Autel programmers:** KM100 / KM100E, IM508 / IM508S, IM608 / IM608 Pro / IM608 Pro II.
- **Programmable with** XP200, XP400, XP400PRO (note: XP200 lacks "Read" on some ID4C/ID4D/ID8A/ID4E original keys).
- **Supports a broad set of chip protocols:** ID11, ID12, ID13, ID46, ID47, ID48, ID49, ID4A, ID4C, ID5C, ID4D, ID64, ID8A, ID8C, MQB.
- **AT100 Super Transponder** generation function for 15 IMMO protocols (includes ID46, ID48, ID4A, ID4D, ID8A, MQB, 5C and more.)
- **Dedicated generation** menus for 500+ models and Smart Universal Key generation for many popular vehicles.
- **Cloning support for common transponders:** ID46, ID4C, Toyota C (4D), Toyota H (8A), Volkswagen MQB, GM 4A, etc.
- **Designed for professional locksmiths**, workshops, and technicians — fast, reliable, and easy to use.

CONDOR XC-MINI PLUS II

POWERFUL *ALL KEY LOST DATABASE*

CODE: SA-XCMNP2

The Condor Mini Plus 2 Auto Key Cutting Machine by Xhorse is an advanced, efficient, and precise key cutting solution designed for professional locksmiths.

This machine combines innovative technology with user-friendly features, making it an ideal choice for cutting a wide variety of keys with high accuracy.

The Condor Mini Plus 2 is engineered to cut automotive keys, dimple keys, and other types of keys with exceptional precision. It boasts a robust construction, integrated technology, and a versatile design, ensuring a seamless key cutting experience.

TOP ADVANTAGES:

- **Automated Cutting:** Features fully automated key cutting capabilities for enhanced efficiency and accuracy.
- **User-Friendly Interface:** Equipped with a touchscreen interface for easy navigation and operation.
- **Database Access:** Comes with an extensive key database, regularly updated for cutting-edge performance.
- **Wi-Fi Connectivity:** Allows for software updates and data synchronization via Wi-Fi.
- **Multi-Functional Clamping System:** Supports a variety of key types with interchangeable clamps.
- **High Precision:** Ensures precise cuts with advanced calibration and guide systems.

CONDOR XC-TWINS

SUPERIOR DOUBLE CUTTER
SEAMLESS CUTTING

CODE: SA-XCTWINS

The X-horse Condor XC-TWINS is Xhorse's newly released, advanced key cutting machine designed for ultimate efficiency with AI optical recognition and a superior double cutter system for seamless cutting. It features a brand-new pressure sensor to prevent probe damage, all-purpose clamps for a wide range of key types, and customizable key cutting options.

The 7-inch intelligent touch screen enhances usability, while intelligent color synchronization provides real-time working status updates. With a powerful built-in database covering over 100 car brands, 2,000 models, and 20,000 key AKL data, it offers lifelong free upgrade services, making it a reliable and professional solution for locksmiths and key cutting specialists.

HIGHLIGHTS

AI Optical Recognition
quipped with a camera that automatically identifies key types and the valid position of the key, supports adjusting key blank sizes.

Customize Key Type
Supports customization of key bitting data and key blank shapes.

Newly Double Cutter Design
Supports cutting various keys (especially residential keys) without frequent cutter changes.

7" Display Intelligent Touch Screen
Equipped with a 7-inch, angle-adjustable screen, making work easier.

Brand-New Pressure Sensor Tech
Equipped with a built-in pressure sensor at the probe side, which helps avoid probe breaking. Effortlessly identifies and cuts metal, plastic, and aluminum keys.

Intelligent Color Synchronization
Smart indicator lights automatically change color with the real-time working status.

All-purpose Clamps
Various functional clamps (M5L, M6, M3, M4) cover a wide range of needs, supporting key duplication for cars, residential use, motorbikes, etc.

Powerful All Key Lost Database
The built-in database covers over 100 car brands, 2,000 car models, 20000 key AKL data with a lifelong upgrade service for free.

Xhorse

SA LOCK Trading (Pty) Ltd

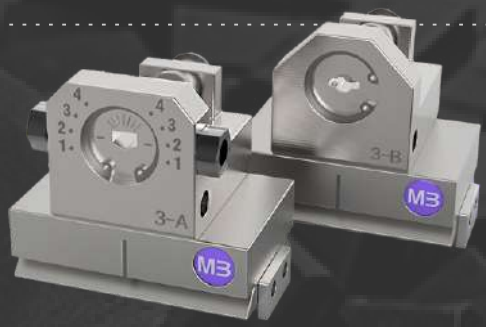
CONDOR XC-TWINS

SUPERIOR DOUBLE CUTTER CLAMPS

M5L CLAMP (STANDARD)

Type: 2-in-1 Dual-Sided Automotive Clamp

Description: An upgraded version of the traditional M1 and M2 clamps, featuring a long-handle mechanism (hence the "L") for quick clamping. Side A handles standard edge-cut keys, while Side B is designed for laser, 2-track, 4-track internal/external, and high-security vehicle keys (including HU162T).



M3 CLAMP (OPTIONAL)

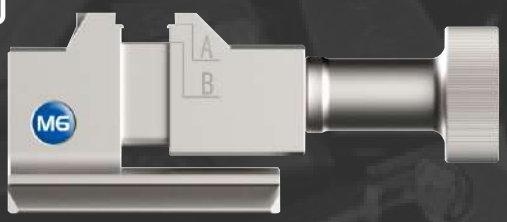
Type: Special Profile / Tibbe Clamp

Description: Designed specifically to securely hold and rotate cylindrical/specialty blades, most notably 6-cut Ford FO21 and Jaguar Tibbe keys, as well as Citroën Sx9 key profiles.

M4 CLAMP (OPTIONAL)

Type: Residential & Household Key Clamp

Description: A dedicated jaw designed for non-automotive keys. It handles standard single-sided and double-sided house keys, cross/cruciform keys, and common padlocks.



M6 CLAMP (OPTIONAL)

Type: Advanced Dimple Key Clamp

Description: Engineered specifically to accommodate high-security dimple keys and expanded multi-surface dimple key profiles with higher precision.

Xhorse

SA LOCK Trading (Pty) Ltd

DOLPHIN XP-008

Mini Mechanical Key Cutting Machine

DESIGNED FOR MORTICE & SAFETY DEPOSIT BOX KEYS

CODE: SA-XP008

The Xhorse Dolphin XP-008 is a precision-engineered mechanical key-cutting machine built for professional locksmiths and workshops. Crafted from sturdy cast aluminum and milled on German DMG CNC equipment, it ensures accurate, repeatable performance.

Ergonomically designed for mobile use, it offers a concealable slide handwheel, 0° to 45° rotation bench, plus an extra-wide open clamping bed designed specifically for duplicating high-security bit, double bit and other mortice keys.

BACK

TOP ADVANTAGES:

- **Target Key Types:** Expertly cuts bit/pump, double bit, and standard safe deposit keys.
- **Flexible Clamping:** Features a wide 115mm clamp space to accommodate long key stems.
- **Adjustable Bench:** The rotation bench tilts from 0° to 45° to precisely duplicate keys with tilted angles.
- **High Precision:** Built with an all-aluminum body and includes an all-direction micro-adjustment base for extreme accuracy.
- **Mobility:** Lightweight, compact, and highly portable, making it perfect for mobile locksmith vans or on-site services.
- **Power Output:** Operates via a DC brushless motor with a 24V, 6.67A (160W max) power adapter.

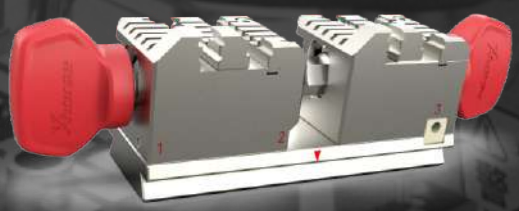
DOLPHIN XP-007

Ultra High Precision Duplication
- For High Security Keys

CODE: SA-XP007

The Xhorse Dolphin XP-007 is a portable, manual key duplicating machine engineered for cutting laser, dimple, and flat keys. Unlike smart, computerized duplicators, it operates completely manually.

Unlike smart, computerized duplicators, it operates completely manually. This means it requires no software logins, firmware updates, or internet licenses, making it an incredibly reliable "un-killable" backup tool for high-volume or mobile locksmiths. It features a built-in lithium-ion battery and is constructed from a robust all-aluminum body.



Core Technical Specifications

- **Power & Motor:** 120W DC brushless motor with adjustable speeds reaching up to 13,000 RPM.
- **Battery Capacity:** 64.75 Wh lithium battery, capable of duplicating 60 to 100 keys on a single charge.
- **Charging Voltage:** Dual 12V–18V power input, allowing it to be charged or operated directly from a vehicle cigarette lighter socket.
- **Machine Dimensions:** 282 mm × 246.5 mm × 355 mm with a net weight of 11.5 kg (gross travel weight of 14 kg).
- **Physical Travel Range:** Spindle travel of 25 mm; table travel of 36 mm (transverse) by 48 mm (portrait).

Ultra-precise Replication
Adjustable guiding Mechanisms.

Aluminium Body
Integral casting, built to last

Micro-adjuster

Ergonomic Lifting Handle

Locking Knob

Xhorse

SA LOCK Trading (Pty) Ltd

DOLPHIN XP-005L

Automatic Key Cutting Machine

CODE: SA-XP005L

The Xhorse Dolphin II XP-005L is a portable, automatic automotive key-cutting machine designed specifically for professional locksmiths.
An upgraded successor to the original Dolphin XP-005, this "Dolphin II" model integrates standalone smart processing and advanced physical protection for roadside and workshop operations.

TECHNICAL CAPABILITIES

- **Standalone Wi-Fi Updates:** Unlike older generations that required a USB connection to a PC "Upgrade Kit," the XP-005L downloads firmware updates and vehicle bitting profile databases directly over Wi-Fi.
- **All Keys Lost & Duplication:** Decodes existing bitting natively via its tracer probe, supports manual bitting input, or cuts directly via electronic codes when all keys are lost.
- **Optical Bitting Recognition:** Users can connect an optional Xhorse Key Reader or use the Xhorse App to photograph a physical blade, which instantly extracts the mechanical cutting code.
- **Token Perks:** Binding the machine to an Xhorse account unlocks one free daily token for password calculations on the VVDI MB Tool or Key Tool Plus

SEC

SEC - BETA PRO

KEY CUTTING *MACHINE*

CODE: SEC-BETA

The Kukai Beta Pro (often referred to in relation to its predecessor series like the SEC-E9 PRO) is an automated, portable key cutting machine designed primarily for automotive and residential locksmiths.

Manufactured by Hunan Kukai Electromechanical, it represents a major evolution from older SEC-series machines by eliminating the built-in tablet screen in favour of direct smartphone or tablet control via Bluetooth.

Key Specifications & Features

- **Full Mobile Mobility:** Features a built-in rechargeable battery, allowing locksmiths to cut keys directly in their service vans without needing mains power.
- **App-Controlled:** Operated entirely via a dedicated iOS and Android mobile app. This allows for faster database updates (at least 4 times per year).
- **S1 4-Way Jaw:** Equips a versatile rotating clamp that natively supports laser keys, standard single/double-sided car keys, and dimple keys without needing separate adapters.
- **"All Keys Lost" Capability:** Features a massive integrated database containing thousands of profiles and millions of key codes to cut a new key directly by code or vehicle make/model/year.
- **Advanced Cutting Features:** Supports key duplication via photography (reading bitting via camera), bitting progression (finding missing cuts), and creating entirely custom key profiles.
- **Lightweight Build:** Weighs roughly 14.7 kg and features a hidden carrying handle for comfortable one-handed transportation.

SEC

SEC - ALPHA PRO

KEY CUTTING *MACHINE*

CODE: SEC-ALPHA

The SEC Kukai Alpha Pro is an advanced, all-in-one automatic key cutting machine engineered specifically for automotive locksmiths, security professionals, and commercial workshops.
Operating as an upgraded, heavy-duty evolution of the popular SEC-E9 platform, this industrial-grade machine automates the entire cutting process for high-security laser keys, standard edge-cut keys, dimple keys, and specialty tubular designs. It features an integrated 7-inch Android tablet that allows users to look up key codes, decode worn blanks via photo recognition, and cut duplicates without needing an external phone or computer connection

Driven by high-precision ball screws and a powerful, quiet brushless DC motor, the Alpha Pro delivers exceptionally smooth, accurate cuts while automatically compensating for jaw wear to ensure factory-level precision every time.

FRONT

BACK

KEY FEATURES

- **Display System:** 7-inch industrial-grade Android touchscreen for smooth offline and Wi-Fi operations.
- **Motor & Axes:** High-precision ballscrews for X, Y, and Z axes alongside a direct-control DC brushless motor for reduced noise.
- **Advanced Jaws:** Versatile jaw system supporting direct cuts for specific vehicle models like Volkswagen/Audi HU162T and Toyota/Lexus TOY2 without extra small jaws.
- **Smart Capabilities:** Built-in cut history synchronization, photo-based key decoding, and ignition/door lock teeth matching
