Automatic Key Cutting Machine

Voltage	DC24V/5A
Power Consumption	120W
Dimension	305(W) x 300(H) x 400(D) mm
Weight	16kg
Resolution	XY Axis:0.0025mm,Z Axis:0.0025mm
Working Temperature Range	0-40°
Working Humidity Range	10-90%
Usage	To cut automobile keys, residential keys, motorcycle keys, dimple keys, tubular keys, FO21 tibbe keys.

 S1 Jaw	 Cutter	 Decoder	 Calibration Block	 Stopper	 M3 Bolt
 M5 Bolt	 1.5mm T-wrench	 2.5mm T-wrench	 24V Adaptor with Power Cord	 Brush	 Product Manual

1. Jaw (4-way jaw) cut standard keys, laser keys and dimple keys (optional dimple decoder and cutters) :
 Side A&B for laser keys (single external groove keys, single internal groove keys, double external groove keys, double internal groove keys and dimple keys) ;
 Side C&D for standard keys (double standard keys) ;
 Side B for dimple keys and HU162T keys (optional 1.9mm cutter).
 No need extra small jaws(such as HU162T, TOY2, VA2,S IP22 etc).

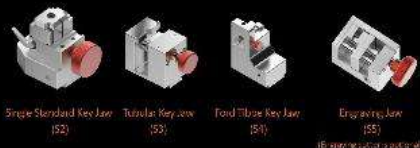

2. Support to duplicate keys without key data in database, including single standard keys, double standard keys, tubular keys, internal groove keys, single external groove keys, double external groove keys.

3. Equipped with tool box to keep decoder, cutter, calibration block etc.

4. Some optional jaws for your choice, including Single Standard Key Jaw (S2) , Tubular Key Jaw (S3), Ford Tibbe Key Jaw (S4) and Engraving Jaw (S5).

5. First key cutting machine to check biting numbers of ignition lock for HU162T key through biting numbers of door lock (vice versa), greatly improving the work efficiency for locksmith.
6. Enhance dust-proof design, effectively avoiding debris and shavings to enter the inner side of machine.
7. Adopted high-precision ballscrew for X, Y & Z axis, bringing higher repetitive positioning accuracy. Adopted DC brushless motor for Z axis to control cutter directly, bring higher cutting precision and lower noise.
